PROFESSIONAL SUMMARY

Front-End Developer with 4 years of experience specializing in Angular 16+, Signals-based state management, and Zoneless architectures to deliver high-performance enterprise applications. Skilled in developing modular UI components, integrating RESTful APIs, and enhancing application performance through lazy loading and AOT compilation. Strong adherence to development best practices, accessibility standards, and clean code principles. Familiar with Git-based workflows and agile methodologies.

SKILLS

Programming, Development and Framework

- Angular, HTML5, CSS3, JavaScript, Typescript, Angular Material , ReactJs(Basics), Jasmine, Karma , Node.js(Basics), SQL, MongoDB, Git and GitHub.
- Basic understanding of CI/CD pipelines ,Kubernetes ,Docker and automated deployment practices.
- VS Code, Postman, SQL Server.

EXPERIENCE

Advayan Technology Pvt Ltd **Bengaluru, IN**

Senior Consultant Nov 2025 – Present

- Architected scalable Micro Frontend (MFE) applications using Module Federation, enabling independent deployments.
- Standardized development workflows using Nx Monorepo ,Standalone Components to improve modularity.
- Optimized reactivity and reduced boilerplate by 40%, engineering real-time data streaming with RxJS and Angular Signals.
- Designed reusable component libraries and enhanced UI performance, reducing code redundancy by 30% and improving maintainability.
- Reduced runtime overhead by 30% by migrating to Zoneless change detection (provideZonelessChangeDetection) and utilizing Modern Control Flow (@if, @for).
- Elevated code quality through Jasmine/Karma unit testing (80%+ coverage) and leveraged AI-assisted development (GitHub Copilot) with structured prompt engineering and reducing production bugs by 40% to secure safe deployment.

Happiest Minds Technologies **Bengaluru, IN**

Senior Software Engineer May 2024 – Oct 2025

- Led development of enterprise-scale Angular 12+ applications using TypeScript, RxJS, and NgRx for scalable state management, reducing build times by 30%.
- Designed reusable UI components and shared libraries, accelerating cross-team development and reducing duplication.
- Optimized Angular change detection using RxJS and OnPush strategies, pioneering Zoneless compatibility and diminishing redundant DOM updates by approximately 30%, as benchmarked by internal monitoring tools.
- Reduced initial bundle size and accelerated load time by 40% using Lazy Loading and AOT, improved user experience.

Associate Software Engineer Aug 2022 – Apr 2024

- Resolved 30+ high-priority UI defects and cross-browser inconsistencies, leading to a 20% decrease in post-deployment bug reports.
- Developed 20+ responsive and accessible UI components using Tailwind CSS, ensuring WCAG compliance and improving cross-device compatibility, reducing accessibility issues by 35%.
- Built and validated 15+ complex Reactive and Template-driven forms, reducing form submission errors by 35% through robust validation logic.
- Streamlined Git and GitLab workflows, improving collaboration efficiency and reducing merge conflicts across a 6-member development team.

EDUCATION

Vidyavardhaka College Of Engineering **Bengaluru, IN**

Bachelor of Engineering (BE) in Information Science Aug 2018 – Jul 2022
